

GERHARD MARX

GERHARD MARX

BIOGRAPHY

Gerhard Marx (b. 1976) received his MA in Fine Art from the University of the Witwatersrand in 2004, and he lives and works in Johannesburg. Marx is an artist, theatre director, and filmmaker, and has collaborated with a number of like-minded practitioners. In his own practice as a visual artist, Marx works across a number of media, including drawing, printmaking and now mosaic. He has often explored the idea of the broken and collaged image, and his drawings convey a delicacy and attention to fineness of detail that is belied by the massive sculptural works he has made with William Kentridge.
